

**CIMAS POST DOCTORAL ASSOCIATE
POSITION 040416**

The Cooperative Institute for Marine and Atmospheric Studies (CIMAS) of the University of Miami, Rosenstiel School of Marine and Atmospheric Science (RSMAS), invites applications for a Post Doctoral Associate position in Physical Oceanography. The position is concerned with analysis of oceanographic observations and will involve close collaboration with scientists at RSMAS and the NOAA Atlantic Oceanographic and Meteorological Laboratory (AOML).

The successful applicant must have a Ph.D. in Physical Oceanography or a related field, be able to perform independent research, have relevant research experience as a graduate student or previous post-doctoral position, and demonstrate interest and experience in analyzing large oceanographic and climatic data sets. Some knowledge in model-observation comparison and model validation is a plus.

Necessary technical skills should include a good knowledge of Matlab and experience in a higher-level computer environment (i.e. UNIX, LINUX). The incumbent is expected to have taken at least nine credits of physical oceanography, and six credits of calculus at the graduate level. The incumbent must have excellent written and oral communication skills in order to communicate with a diverse group of people in large collaborative projects.

Apply online at: www.miami.edu/careers. Curriculum Vitae and the contact information for 3 people who can provide letters of recommendation are required.

The University of Miami is an equal opportunity/affirmative action employer.
